Gery Mendes (GMB) is one of the best upcoming musicians in the Netherlands, combining soulfull hiphop with funk, jazz, classical music and his own distinctive Cape Verdean roots. Recently he gave a stunning concert with a full live band and string ensemble in Club Watt. Watch the trailer for the first footage from this performance, which will be released this year on CD and DVD.

The concertfilm is produced by Zimati in association with CCCP and In-Soo Productions and with financial support of Your World.
